

Erasmus+ Meeting in Izmir, Türkiye

Project meeting

eTwinning

Erasmus+

INDIRE

Latest tips:

→ Design the structure of the TwinSpace

- Identify a shared criterion for pages (few pages, use of subpages)
- Decides who will access to TS (students, parents, colleagues/headteachers, experts...).
- Agree which pages to make public and which to leave private (GDPR!)

→ Plan collaborative activities, no parallel work! **Collaborate remotely beyond visits**

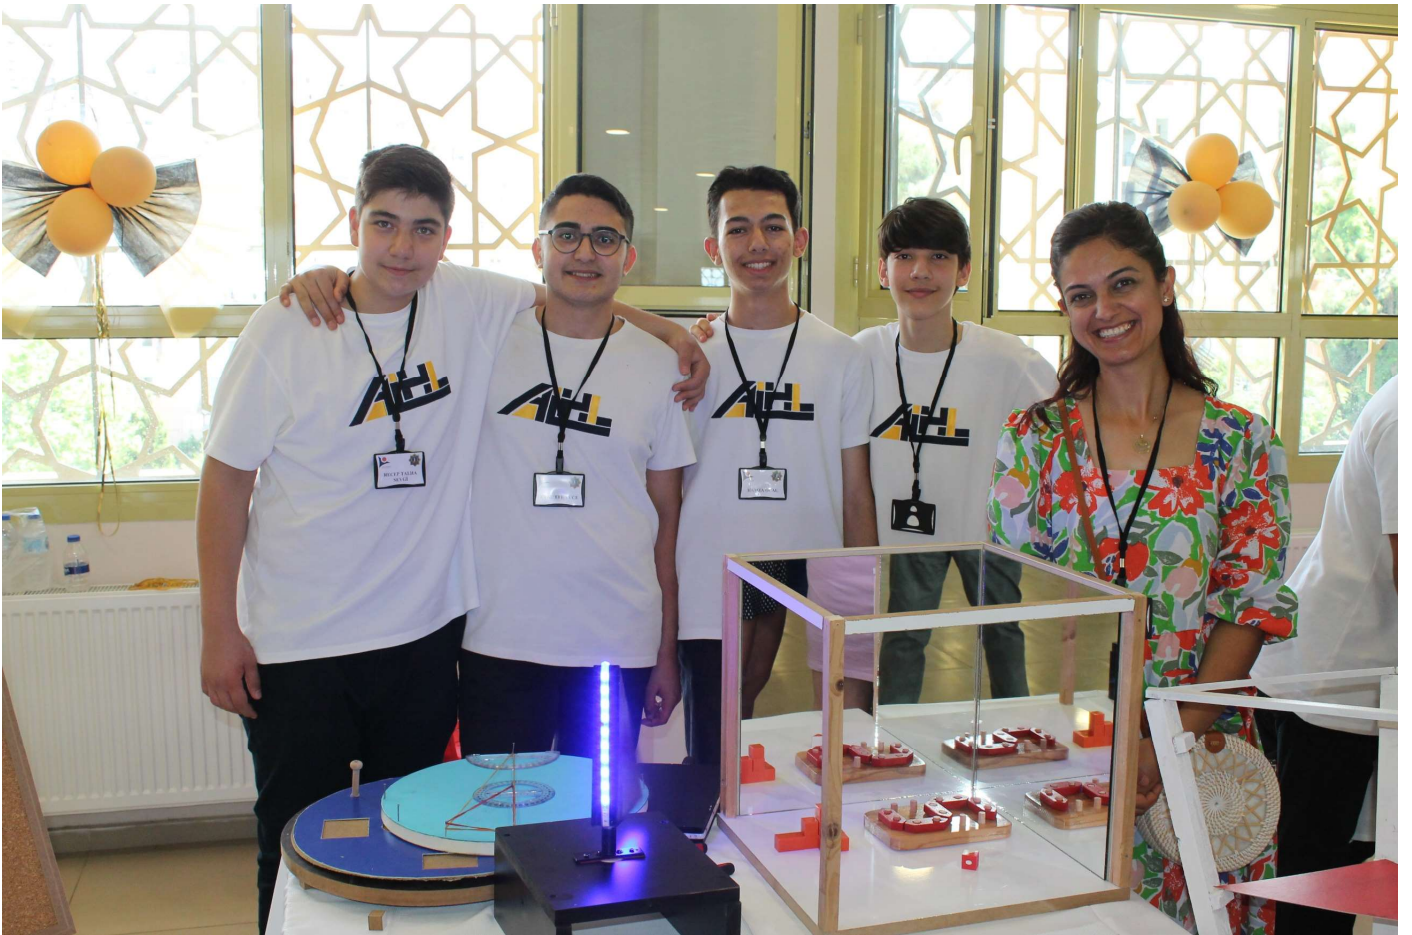

→ Take care of the documentation in progress:

- The type of classroom use of other partners' products
- Collaborative activities between students who have created a common product
- The improvements of pupils' skills and the value of the result given the context
- Live sessions and «invisible» results
- The involvement of colleagues and parents
- The spread of the project and its impact
